**WISE SCOOTERING**

**CATALOG 2016**

# WISE SCOOTERING IS A FREESTYLE SCOOTER

## PARTS MANUFACTURER.

The brand was created in 2011 and the team stood up at its side ever since, knowing Wise was a sponsor like no other. In 2015, we wish to get our awesome scooter parts in the hands of passionate scooter riders like us.

### What makes us different from other scooter companies?

- 100% rider owned - incredibly dedicated riders
- Each team rider is not bidding its future on full time scootering
- Each rider has a job or keeps on studying
- The ability to produce long term high quality media instead of relying on social networks only to do daily advertising among the community
- Light, strong & highly crafted scooter parts

Thanks for the support  
Balthazar NEVEU
